

PARTIAL CDR / R.O.I.O. CD LIST (This List last updated on: 7/2/04)

I have close to ten thousand CDs and LPs in my collection. I don't trade copyrighted material under any circumstances, unless said material is no longer available in any format (Parts 3 and 4 of this list)
Stuff on this list falls into 4 basic categories:

- (a) PART 1: Live shows, studio out-takes, or other material that has never been released (to my knowledge at least) in any format.
- (b) PART 2: Commercial bootleg CDs
- (c) PART 3: LPs or Cassettes that are out of print and have never been released on CD; these have been meticulously transferred to CDR. Most have been track indexed.
- (d) PART 4: CDs that were once available but are now long out of print.

Note: Items in Part 3 that are followed by # are things that were reissued after they originally appeared on this list. I won't trade these items unless you really want the LP transfer instead of the CD reissue.

** These have full color backtray and/or booklet insert

* These have homemade backtray and booklet insert (most were never released items)

All others have no backtray but I may be able to supply track listings and personnel.

All shows are one disc unless it says otherwise. Dates listed are mm/dd/yy

Also note that the person who I got all the Bresse Sur Grosne shows has asked me not to trade them further at this time, and I agreed not to. However I may be able to trade these at some point in the future.
